

W. M. KECK  
OBSERVATORY

Exoplanet: KOI-94 b

Named in the W. M. Keck Observatory  
Keck Exoplanet Registry

“Brendan Kutler”

A planet 70% larger than Earth, orbiting a  
F-type main sequence star.

Also known as KIC-6462863 b.

Mass: 10.5 Earths

Orbital Period: 3.74 days

Distance from Earth: 600 light years

Constellation: Cygnus
